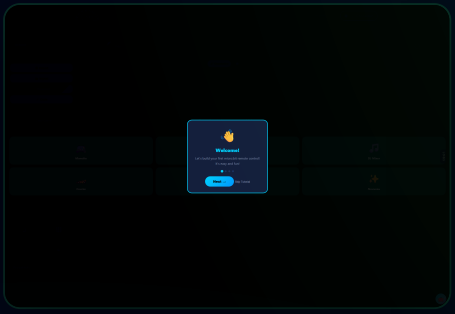
RXY

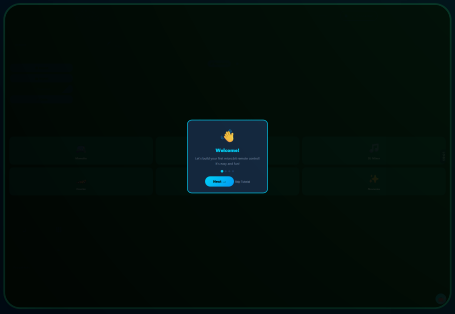
micro:bit V2

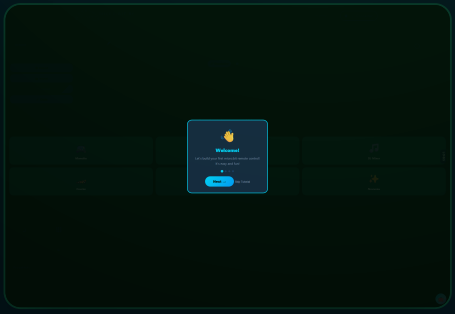
Drag. Drop. Drive. No code.

The browser IS the remote builder.

Build a Bluetooth remote for your micro:bit — in a browser tab. V1 AND V2 supported.







Get started in 60 seconds

1. Open Chrome or Edge on any laptop.
2. Pick a template, or drag widgets.
3. Click Connect, pair the micro:bit.
4. Play — your board responds live.
5. Export MakeCode JS or flash .hex.

12 widgets, 6 templates

Button · Slider · Joystick · D-Pad · XY Pad · Gauge · Graph · Battery · Timer · Knob · Switch · Readout.

Auto-generated MakeCode

Design a remote — one click exports paste-ready MakeCode JS. Download .hex, drag to the board.

5 themes, trilingual UI

Stealth, Neon, Arctic, Blaze, Classic. EN / FR / AR interface with 20 keyboard shortcuts.

For teachers, kids, and makers.

The best remote is the one the kid just designed.
