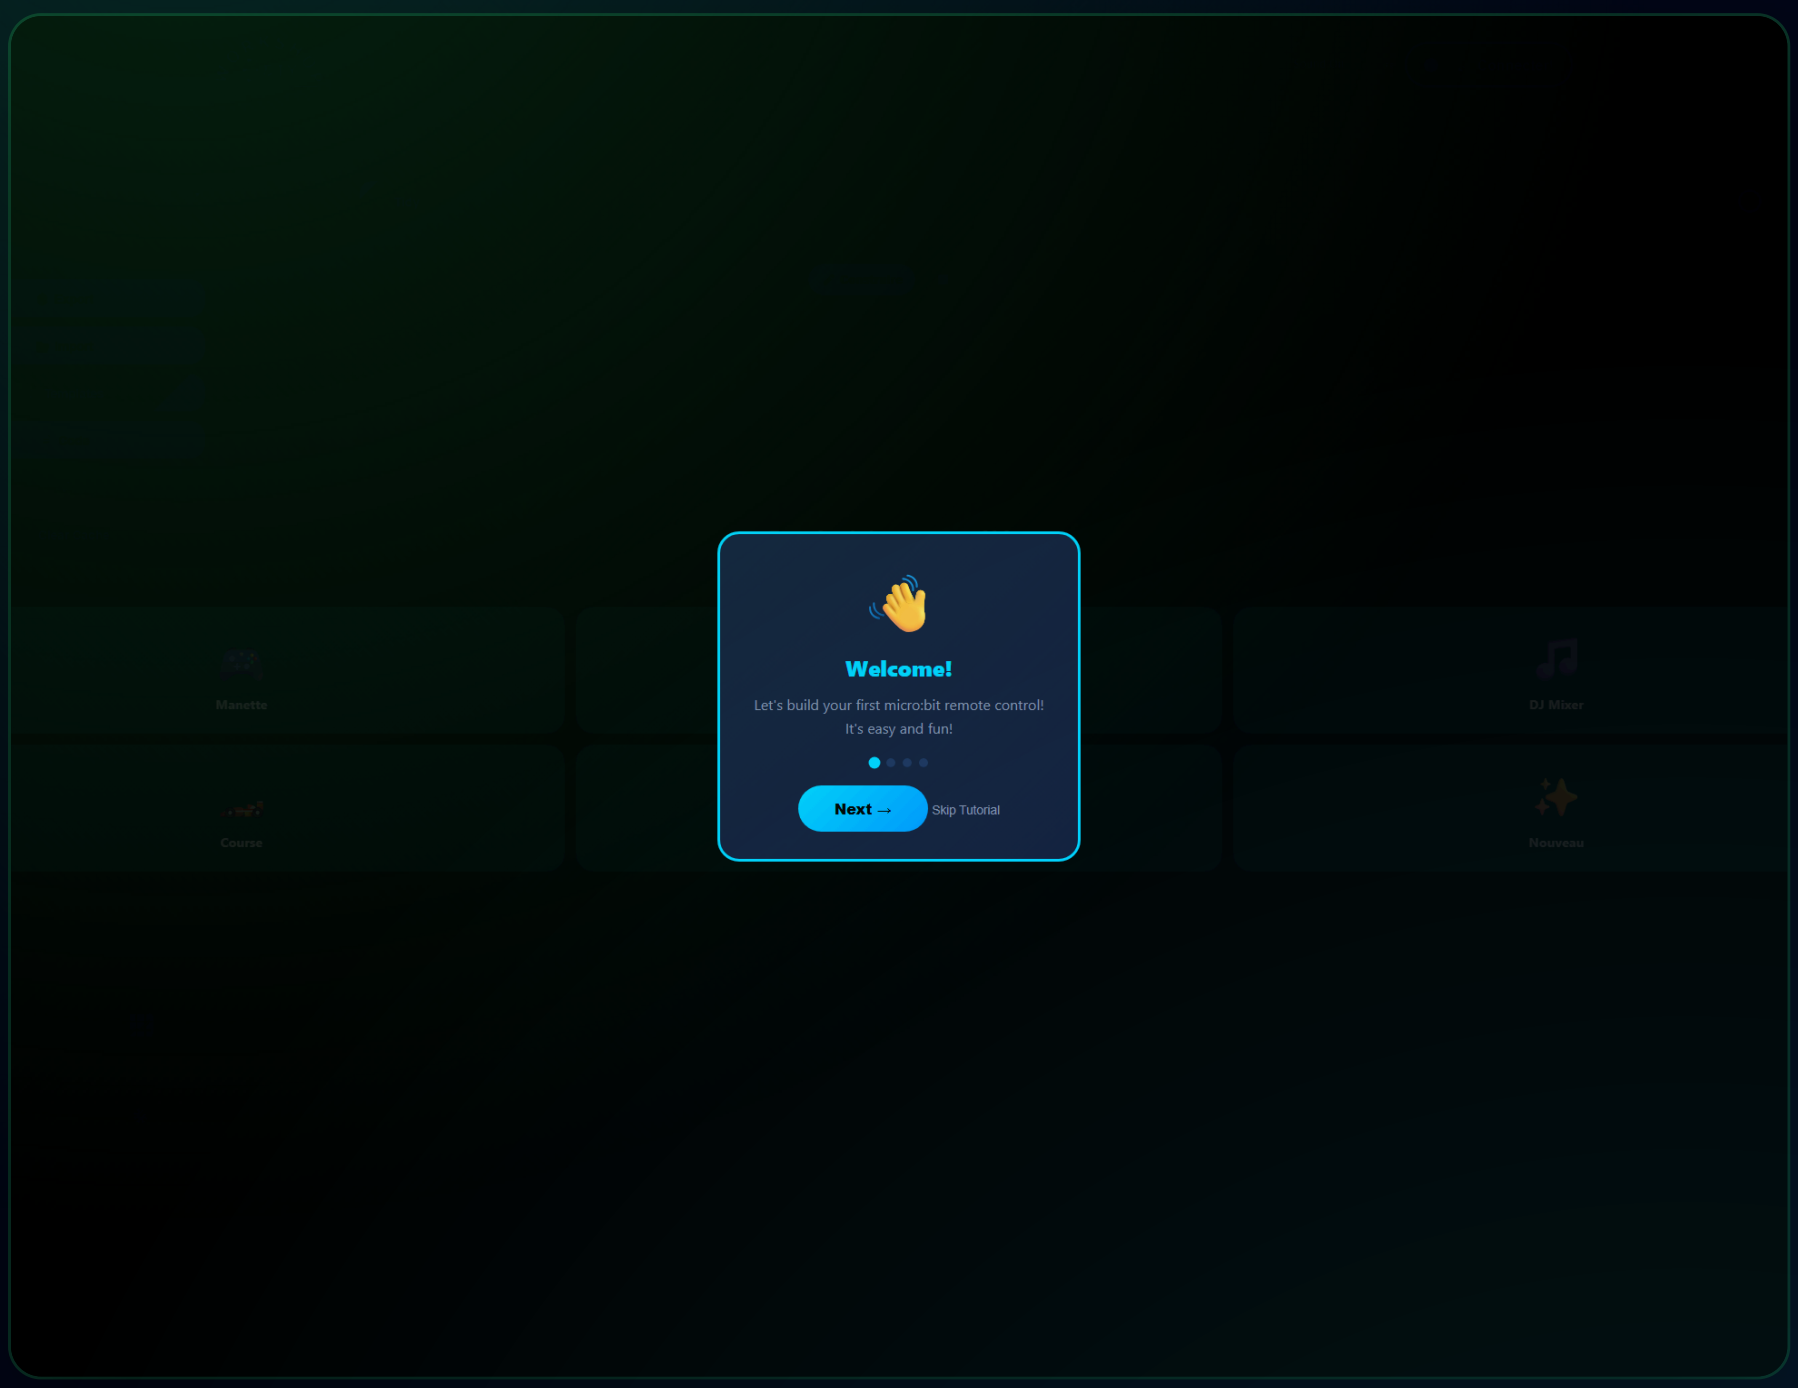
12 WIDGETS · 6 TEMPLATES · MAKECODE GENERATOR

Drag. Drop. Drive. No code.

Build a Bluetooth remote for your micro:bit — in a browser tab. V1 AND V2 supported.



12 widgets, 6 templates

Button · Slider · Joystick · D-Pad · XY Pad · Gauge · Graph · Battery · Timer · Knob · Switch · Readout.

Auto-generated MakeCode

Design a remote — one click exports paste-ready MakeCode JS. Download .hex, drag to the board.

5 themes, trilingual UI

Stealth, Neon, Arctic, Blaze, Classic. EN / FR / AR interface with 20 keyboard shortcuts.

Chrome / Edge · 100% local · No account
Works on micro:bit V1 AND V2 (rare)
